Experience

Programmer Analyst Trainee , Cognizant Technology solutions <ul style="list-style-type: none">Developed web applications using C#, .NET Core Web API.Worked with SQL databases, optimizing queries and managing data efficiently.Gained experience in building scalable applications and collaborating in Agile teams.	Feb 2025 - May 2025
--	---------------------

Projects

Full Stack E-commerce App | .NET Core, Angular, JWT

- Engineered a full-stack e-commerce platform using Angular for the frontend and ASP.NET Core Web API with JWT-based authentication and role-based authorization.
- Implemented a complete product catalog, shopping cart, and order system using Entity Framework Core and SQL Server.

MoodFlix | React, Appwrite, Tailwind CSS

[GitHub](#) | [Live](#)

- Built a modern movie discovery platform that dynamically curates content based on user behavior, improving session time and retention.
- Integrated Appwrite for authentication, database, and serverless functions, enabling scalable and secure backend operations.
